OBJECTIVE

Motivated and detail-oriented Computer Science graduate (BSCS) with strong foundational knowledge in programming, data structures, and software development. Eager to contribute technical skills in languages such as Java, PHP, and JavaScript to innovative projects. Seeking an opportunity to grow as a software developer in a dynamic organization where I can apply my problem-solving abilities, passion for coding, and commitment to continuous learning.

EXPERIENCE

March 2021 -
February 2022

Creative Scholar School
Computer Teacher

- Planned and delivered engaging computer science lessons for students from [mention grade levels, e.g., Grade 1 to Grade 10].
- Taught fundamental and advanced topics, including MS Office, HTML, CSS, Scratch programming.
- Conducted practical lab sessions to enhance students' hands-on learning and technical skills.
- Developed lesson plans, assignments, and assessments aligned with curriculum standards.
- Organized computer-related competitions, quizzes, and tech fairs to promote digital literacy.
- Guided students in creating their own mini-projects, websites, and presentations.
- Maintained and upgraded computer lab systems and ensured smooth functioning of all IT equipment.
- Provided extra support to students needing additional help in understanding computer concepts.
- Collaborated with other teachers to integrate technology into other subjects.
- Kept records of students' progress and shared regular updates with parents during PTMs.

February 2022
- March 2023

Fiverr
Freelancer

- Successfully completed diverse freelance projects for global clients with 5-star ratings and positive reviews.
- Offered data scraping services, extracting structured information from websites using tools like PHP, Excel, and APIs.
- Delivered YouTube influencer research services, identifying relevant influencers based on niche, engagement, location, and follower base to support brand marketing strategies.
- Provided front-end web development services using HTML, CSS, JavaScript and Bootstrap to build responsive, user-friendly websites and UI components.
- Communicated effectively with clients to understand requirements, propose solutions, and deliver projects on time.
- Ensured high-quality deliverables through thorough testing and revisions based on client feedback.
- Maintained client satisfaction with professional service, clear documentation, and post-delivery support.

March 2025 -
June 2025

University of Engineering and Technology
Lab Attended (Data Mining class)

- Assisted students and faculty during practical lab sessions focused on data mining concepts and tools.
- Provided technical support for software like WEKA, RapidMiner, Python (pandas, scikit-learn), and SQL used in lab exercises.
- Prepared lab systems before each session by installing required tools, updating datasets, and troubleshooting software issues.
- Guided students in implementing data mining algorithms including classification, clustering, association rule mining, and data preprocessing techniques.
- Maintained lab cleanliness, equipment functionality, and ensured adherence to lab safety protocols.
- Helped in grading lab assignments and providing feedback under instructor supervision.
- Supported the instructor by creating lab manuals, demo projects, and tutorials to enhance student learning.

EDUCATION

2025

Virtual university of Pakistan
BSCS

SKILLS

- Web development
- Chats and email support
- C++
- HTML, CSS, JavaScript
- My SQL, PHP
- Java
- Webflow
- Eclipse
- Social Media Management
- Team Collobration
- Attention to detail
- Team Management

ACHIEVEMENTS & AWARDS

- Full stack development (3 months course) from UET Kics department.
